PREPARATION BEFORE ARRIVAL

ARRIVAL DATE – FIRST DAY

instructions. Be sure you have some flexible time to pick up your birds from the post office. Sometimes they do not arrive when expected. Be sure to have your brooder area set up and heating source tested out so the birds can go straight into the brooder as soon as they arrive. Refrain from handling or playing with the birds the first 24 hours. We recommend for the first day to have the drinking water at 98 degrees F. This is because the birds are small with little weight to them on arrival. They will drink a lot of water which if too cool can rapidly decrease their body temperature and put them into shock or make them sick. Take each chick, one at a time and with your fingers hold the chick's head and do a quick dip of the chick's beak into the water and then let go of the chick. You can add 1 tablespoon of sugar to 1 quart of 98 degree water and shake well. Use this mixture for first 4 hours and then change to regular water. Normally the chicks will not start drinking or eating until the chick's body has warmed. So, at floor level the heat needs to be 100°-101° degrees directly under the heat source. Make plenty of room so the birds can walk away from the heat source when they get too hot. A guide is one brooder lamp per 25 chicks using a 100 watt incandescent light bulb. The bottom of the bulb should be about 18 inches above the floor (check for 100° -101° degrees at floor level). Make sure the chicks have a big area to move away from the heat as needed. Lay down several layers of paper towels all around the brooder floor and sprinkle chick starter on the paper towels. Their feet will not slip on the paper towels and they will pick at all the sprinkled chick starter. Change the paper towels out as needed. Then the next day remove the paper towels and/or sprinkled feed and use your normal feeder. You can also order from Cackle Hatchery a "Starter Kit." It should be ordered and shipped in advance of your chicks. * Read our complete "Care Sheet" found on our web site or the "Care Sheet" sent with your order for care instruction after the first day of arrival.

"Other Breed Class"

This Sex Link Hybrid is the result of crossing two purebred standard breeds. The Rhode Island Red rooster and the Barred Rock hen (parent stock). The baby chicks are color sexed, males barred (black with light color on head), pullets are black. This hybrid makes for very vigorous chicks, rugged brown egg laying hens and good cockerel fryers.

"Other Breed Class"
We offer 2 Modern Day Brown egg laying strains from hybrid breeding that produce fast body development and fast egg production. These strains will start to lay eggs at a younger age than most standard breeds and produce big brown eggs. They are also color sexable as chicks, cockerels are white and the pullets are more brownish red in color. You are sure to be pleased with any one of the two we offer. 250-320 Brown Eggs per year. Large to Ex-Large egg size.

JERSEY GIANT**

Hen 10 lbs.
Rooster 13 lbs.
Pullet 8 lbs.
Cockerels 11 lbs.

Egg Production
★180-260 eggs per year.

“American Class”

Was originated in the State of New Jersey during the 1880’s. A good heavy breed, however, slower to grow than some breeds before surpassing them in weight and size. When grown the black feathers take on a green sheen within the black color. Admitted to the American Standard of Perfection in 1922, (Sustainable Heritage Chicken Breed). Both varieties noted for willow colored or nearly black legs and toes.

The Easter Egger chicken is not to be confused with the Araucana or the Ameraucana chicken. Cackle Hatchery® breeding program objectives for the "Easter Egg" chickens are to produce chickens with a wide variety of feather colors, patterns and feather combinations of colors with a full beard under the beak and high egg production of colorful egg shells. The color of their egg shells vary from pale blue chicken eggs to dark blue to various shades of green and a few light brownish/pink eggs.

The Jumbo Cornish Cross is a fast developing, broad breasted broiler meat type chicken. Ready to dress in six weeks or sooner. *Feed high protein feed that is 21% or better.* Fluid in the body cavity (Ascite) and/or leg weakness may result and it may be necessary to restrict the feed intake – slowing down the growth rate. We Currently use the “Cobb 500” bloodline/strain.

Pullet 6 weeks 4½ lbs.

Cockerels 6 weeks 5½ lbs.

“Cobb 500” bloodline/strain.

Item # 201 Only Offered as Not Sexed

Cackle's Red Broilers

Are a great alternative to the white commercial Cornish cross chicken. Cackle's red broiler is slower growing than the commercial Cornish cross chicken but faster growing than the regular heritage chicken breeds. This makes for a great broiler without some of the health issues

the commercial Cornish cross might encounter. At 9-10 weeks the males should be at 6 lbs and the females should be 5 lbs.

"All Other Standard Breeds"

Aseels are a known breed originating from India and known for their gameness. Aseels are heavier than they appear because of their tight fitting feathers. They have compact bodies and are very muscular, with a pea comb. This breed requires a lot of room and range. The males are very territorial and will be aggressive to other male chickens. Recognized by the Standard of Perfection in 1981.

The Saipan chicken is commonly called a Jungle Fowl, however, they are not to be confused with the true Jungle Fowl. The Saipan male can stand 2-3 feet tall, with tight feathering, shorter tail than most birds and as a 2-3 year old becomes very muscular and upright in stature. During the Second World War, Saipan chickens were brought to the United States from southeastern Asia and India.

"Oriental Class"

The Red Jungle Fowl birds are the "original bird" from which all varieties and strains of domesticated chickens arrived based on comments and observations made by Darwin. This type of chicken/fowl is smaller than most common sizes of chickens yet a little bigger than the modern day bantams that are being bred. These birds have one of your best chances of free ranging fowl and avoiding predators.

FERTILE HATCHING EGGS

Free Shipping. We guarantee the same fresh eggs that go into our own incubators that produce chicks for our customers. Our flocks and hatchery participate in "National Poultry Improvement Plan" of the United States Department of Agriculture. However, we do not guarantee your hatchability or health of chicks due to many issues out of our control once they leave our facility (see FAQ at www.cacklehatchery.com for more details). Eggs should be incubated within 1-2 days of arrival. We do not ship eggs to Hawaii. These eggs are from the brown egg layers we offer. The eggs may or may not be assorted brown egg layers and are hatchery choice. A signature is required on delivery. ***See additional terms at cacklehatchery.com**

Standard Old English Game Fowl – Said to be one of the oldest breeds of fowl and noted for their gameness (their courage and indomitable spirit). The male is very territorial and will defend his ground with other invading roosters. It is recommended to keep the males separated after six months of age. Note: All male roosters of any breed will fight; however the Standard Old English Game rooster will fight but not give up unlike most other breeds of roosters. Blood lines of the Standard Old English Game Fowl throughout history have been used in many of our today breeds of poultry for hardiness and vigor. Jeff Smith developed and improved on the 18 color varieties that we offer for sale with over 38 years of development. There are 9 varieties admitted into the American Standard of Perfection at this time. Fighting rooster engravings are found on old Roman coins, was the national sport during King Henry VIII time, Abraham Lincoln refereed fights (“Honest Abe”) for fairness as a sporting judge and the University of South Carolina continues with the Game – cock mascot. NOTE: The Old English photos are photographed with comb, ear lobes, and wattles dubbed (cut off). Entering a poultry show with non–dubbed males of the Old English breed is a disqualification. You can check your local or state poultry association/clubs for up coming shows and check out your state fair poultry show dates. You would compete for ribbons with other breeds that are listed in the class “All Other Standard Breeds”.

OLD ENGLISH GAME BANTAMS

Game Bantam Class

The Old English Game Bantam is a miniature size of the Standard (large size) Old English Game Chicken. The Old English Game Bantam breeds come in many varieties and are very popular at poultry shows with their spirited personalities. Many varieties were admitted into the American Standard of Perfection from 1925 to 1996 and are among the largest class of breeds represented at poultry shows. They make excellent pets and require little feed and space. Note: The Old English Bantam photos are photographed with the comb, ear lobes, and wattles dubbed (cut off) of the rooster. Entering a poultry show, males should be dubbed, or they will be disqualified and hens should not be dubbed.

We currently offer for sale 17 color varieties of Old English Game Bantam.

Bantam Recommended order is 25 chicks for Feb-March.

Bantam Recommended order is 15 chicks for balance of year.

Bantam Minimum order of each breed/variety is 5 chicks.

Guinea Fowl

We offer 4 varieties: **White, Lavender, Pearl and Royal Purple**. The Guinea makes a very good watch dog and will let you know if something different is going on. They are known to be good tick and bug eaters and will let you know if an intruder is around. The origin of the Guinea is the west coast of Africa.

Figures of the Guinea Fowl are found on buildings built by ancient Egyptians as far back as 2400's B.C. In 400 B.C. the Greeks considered the meat and eggs delicacies.

Bobwhite Quail

Bobwhites are a native Quail and take longer to mature for reproduction as compared to a Pharoah Quail. The Bobwhite will usually pair up with a mate but breeders of the Bobwhite also do well with colony breeder birds in the same large flight pen.

Pharoah Coturnix Quail

The Coturnix quail mature after 6 weeks of age and are full grown at 10 weeks of age. The Pharoah Quail are very popular in Europe and Asia and because of being very hardy they do very well released in America.

Ringneck Pheasant

The Ringneck Pheasant had a successful introduction into the United States in 1880. This fowl spend much of their time on the ground scratching for food and can fly at a great speed for short distances.

Chukar Partridge

The Chukar is a native of Europe and Asia and is now well established here in the United States. They spend most of their time scratching for food, are smaller than the Pheasant and are very popular for hunting.

Game birds must be ordered separate from chicken, etc. as they are shipped separate. Check with your local wildlife regulatory agency to see if permit is required for pheasant, wild mallards, wild turkeys and Bobwhite Quail.

BOBWHITE QUAIL

Missouri Residents are Required to have a Conservation Permit on Bobwhite Quail & Ringneck Pheasant

Mallard Ducks

Mallard Ducks are very self-reliant, good foragers and the hens make outstanding mothers. They are very good flyers but even though they are called Wild Flying Mallard Ducks when raised on a farm they will more than likely stay at the farm pond.

Swedish Ducks are one of the hardiest of all the breeds, with a calm disposition. Their body type is very close to the Pekin duck and adult weight is around 8 lbs. for the drake and 7 lbs. for the hen. As early as 1835, the Blue Swedish Duck was being raised by farmers in Pomerania, which back then was part of Sweden, thus the name. Blue Swedish was admitted into the American Standard of Perfection in 1904.

SURPLUS DUCKS
(HATCHERY CHOICE)

This selection is what ever is left over, it can be only one breed or it can be a mix; generally if we can, we give you several duck breeds. Hatchery Choice can be from the following straight run duck breeds: Cayuga, Fawn Runner, Black Runner, Blue Swedish, Black Swedish; Ancona, Welch Harlequin, Khaki Cambell, Rouen and the White Pekin Duck.

A Straight Run is - Males and females mixed as hatched.

White Chinese Goose – Originated in China and sometimes called the swan goose because they were developed from the wild swan goose.

These Geese, with their aggressive disposition and honking response, make excellent “watch dogs.”

Domesticated from the Swan Goose of Central Siberia over 2,000 years ago. Best egg-laying goose.

Manna Pro Coop N' Compost

Coop 'N Compost is the natural way to neutralize odors and moisture in the chicken coop. Not only will this protect the respiratory systems of your flock, but it will make your nose and neighbors happy! In addition to the powerful odor control, Coop 'N Compost also helps make

the nutrients in your manure and compost more plant-accessible which can benefit your garden. It reduces odors and moisture, extends the life of your bedding, and helps improve the quality of your compost.

MV16 Qty. 1 **\$13.99** *Free Shipping

Manna Pro Poultry Protector

Poultry Protector™ is an all-natural solution to the common problem of mites, lice, fleas and ticks within the backyard flock. The natural enzymes in Poultry Protector clean away these pesky bugs safely, without the use of harsh chemicals found in so many other insect treatment products. Ridding the coop of these pests helps reduce stress and makes your birds more comfortable so they can do what they do best: lay beautiful eggs, grow and

flourish. Available in a 16 oz. Ready-to-Use spray. Helps protect your coop and birds from mites, lice, fleas and ticks! All Natural, Non-Toxic, a safe alternative to harsh chemical treatments, and it helps reduce stress.

MV19 Qty. 1 **\$14.99** *Free Shipping

It is much easier to prevent bacterial diseases than to treat them. Provide DPP at one day of age, during times of stress, AFTER (NOT during) antibiotic therapy, monthly or continuously. At one day of age when gut is sterile, DPP populates the gut with beneficial bacteria before pathogens can establish themselves.

MV29 QTY 1 **\$11.00** *Free Shipping

Dry Cider Vinegar

Apple cider vinegar is full of antibiotic properties. The main substance in vinegar, acetic acid, can kill

bacteria and/or prevent them from multiplying and reaching harmful levels. Good home remedy for maintenance of a healthy chicken.

MV 40 Qty. 1 **\$3.95** Free Shipping

Baby Cake

A great treat for chicks that is very nutritional and stimulates eating and foraging. Use this 15 oz. bar in conjunction with daily chick starter or grower.

FT01 Qty. 1 **\$14.99** *Free Shipping

Mealworm Frenzy 10 oz container

Feed straight from your hand, scattered on the ground, or in a feeding dish as a treat only. Watch your chickens dance and peck in a frenzy for these 100% natural whole-dried mealworms!

Contains approximately 10,000 dried mealworms that chickens absolutely love to eat. Dried mealworms offer chickens the taste they love without the inconvenience of storing and handling live worms.

FT07 Qty. 1 **\$29.99** Free shipping

Sunflower Sensation 2 lb container

Feed straight from your hand, scattered on the ground, or in a feeding dish as a treat only. Watch your chickens dance and peck for this one of a kind sensational blend of sunflower seeds and more! Contains assorted

sunflower seeds, peanuts, oats, and raisins to create a sensational treat chickens love to eat.

Optional - add \$165.00 for wired for electricity and light. Wired # CC01

CAKLE HATCHERY BACK YARD CHICKEN HOUSES

We offer 2 different sizes of our chicken houses. We offer only light tan color for the roof to help with reflecting the sun's heat. The roof and sides are made of construction grade metal roofing. The front and back part of the house is the color red. The inside house roof is insulated to keep the house cool in the summer. The house comes with a nest unit that can be opened from the outside for easy gathering of eggs.

The chicken houses come with an automatic drinker cup attached to a 2½ gallon waterer. The chicken houses come with an automatic feeder built into the inside back door. Each unit comes with 2 doors for easy access of front pen and back house, comes with 2 functional windows that can be opened or closed (for light or ventilation) and 2 trap doors for the pen and to free range.

Each unit comes with a pull rope to move the chicken house to fresh ground, has 1 x 2 welded wire on exterior, ground contact and wide seal for predator protection for the pen, a solid composite floor in the house part and roost poles. All this makes raising free-range chickens in your back yard easy.

Our chicken houses are engineered to be long lasting and light weight made of 70% polypropylene (a food safe plastic) and 30% wood by-products from recycled sources with no environmentally hazardous material. These 2 materials create a lumber material that will not rot and will last.

Chicken house # 1 will weigh approximately 265 lbs and #2 will weigh approximately 285lbs. They slide easily on the grass to relocate and are designed not to blow over in storms. These coops are designed for year round comfort and happiness for your poultry, whether it is summer, fall, winter or spring.

Both units are **delivered right to your front yard** by contracted trucking companies. The chicken houses **ARRIVE COMPLETELY ASSEMBLED** and ready to use. We do recommend having 2 people ready to help the driver set the chicken house off the truck.

We do recommend following the suggested number of birds per house, more can be added, but overcrowding can stress the chickens causing diseases and unhappy chickens.

The #1 and #2 chicken houses can usually be moved by one person pulling the rope. We suggest moving the chicken house as much as possible to keep a new patch of clean grass for them to eat and scratch in.

These portable (chicken tractor) chicken houses are a great way to raise sustainable healthy chickens. The more you move it the more the chickens love it, be sure to lock your poultry in the house before moving. Most generally one person can move the house with the pull rope that is attached.

The lumber is resistant to moisture, decay and insects and should last 20 years. In weather simulation tests, it shows a life span of at least 30 years.

We do not ship these chicken houses to Alaska or Hawaii. Our shipping fees are subject to change without notice. *Some counties or real rural areas may have a higher shipping cost.

Local delivery: A \$25.00 delivery fee within 10 miles of Cackle Hatchery and a \$1.00 per mile (one way fee) after 10 miles up to 40 miles from Cackle Hatchery, Lebanon, Missouri.

Or

“SMALL ORDER SPECIALS”

Just need a few pullets and no roosters, or your city restricts the number of chickens, or you only want a few chickens?

Item # 1243 City - Town Pullet Special 3**

Order any 3 one day old chicks of any “Standard Size” pullets in our catalog for:

\$50.00* Free Shipping

Please write in details on the order form. List the name of the pullet breeds for these 3 chicks.

*NOTE: There is a higher cost associated with properly shipping/packing handling a SMALL amount of chicks to arrive safely to your post office. A number of measures may be used such as a heating pad, extra nesting or padding, special box or boxes, or any special shipping arrangements. All of the above seven specials include Mareks Vaccination.

**Breeds not available for ANY of the specials — Black Laced Red Wyandotte, Barnevelders, Buckeyes, All French Marans, Olive Egger, Black Ameraucana, Golden Spitzhauben, Saipan Jungle Fowl, Red Jungle Fowl, Standard Old English, Aseels, White Chantecler, Buff Brahma, Dark Brahma, and All Bantams.

Cackle Hatchery® must be notified of any unsafe arrivals within 24 hours in order for you to be refunded the chick price (regular chick price) or a one time reshipment. All other orders other than page 92 and 93 must use minimum order requirements found on page 4 of the catalog and use regular shipping fees listed in the catalog or if ordering by web site store which will calculate your shipping fees. We do not send extra chicks on these small orders. Your confirmed shipping date may be changed at the last minute at the discretion of Cackle Hatchery® depending on the weather at time of shipping.

*** Supplies, Medications, Waterers, Feeders, Books and Gifts are FREE SHIPPING when Total Order Exceeds \$25.00 (Does not Include Poultry).**
Order by Phone: 417-532-4581

Shipping Charges

See order form (insert) in the catalog. Shipping charges subject to change without notice.

100% Live Delivery Guaranteed

We guarantee that you will receive full count of live, healthy poultry according to this guarantee. We often place extra chicks in each box to help fulfill this guarantee. However, if losses should occur in shipment and you do receive less live chicks than you ordered and paid for, we will make an adjustment either by replacing poultry, (we are not able to ship just a few chicks for replacement) or process a refund for the chick price or a credit to another order you are placing for the current year. **Please open chick boxes immediately and inspect poultry. If your shipment is INSURED and you do not have a full count of live chicks that you paid for (don't count any extras we may have sent), please ask the delivery agent to sign your statement of loss (PS form 1000) and send to us immediately. Or go online to USPS.com/insuranceclaims/online. If your shipment was NOT INSURED and you have a loss, then call us ASAP for an adjustment. This guarantee is only for the safe and live delivery of your poultry. Any loss must be reported to the hatchery within 3 days of receipt for any adjustment to be made. We DO NOT offer any guarantee/replacements/refunds on shipments of peafowl or rare ornamental pheasants. At NO time will Cackle Hatchery® accept returns of live or deceased poultry.**

Quality Guaranteed. All Cackle Hatchery® poultry are guaranteed to be of the grade, quality, sex and breed as represented. Should any error occur we will make prompt adjustment. In producing these chicks the seller has followed approved and recommended methods of flock control and egg selection and has established sanitary and disease control standards in the Hatchery operation. Seller does not warrant poultry to be free from any disease which could not be ascertained at the time of sale. Liability is limited in all cases to replacement of damaged chicks and extra chicks must apply. Replacement good for 1 time only. Under no circumstances shall our liability, on claims of any kind, exceed the total price paid for poultry. We participate in the United States Department of Agriculture Animal Health inspection service "National Poultry Improvement Plan". *Egg Production listings are estimates only, see www.cacklehatchery.com FAQ for more details.

Our photos of the different pure breed birds are representations of the pure breed poultry named and may or may not be of our bloodlines. Our goal at Cackle Hatchery® is to mate parent stock that will produce chicks that will mature into similar representations of each breed that is photographed or represented in the American Standard of Perfection. We have numerous flock owners and customers who show their birds at poultry shows throughout the United States. Of course, the birds shown at poultry shows are usually the best marked bird of their entire flock. Most flocks of a pure breed will have some kind or degree of variance from one bird to another. A large percentage of the photos in our catalog or website are of our bloodlines.

Website or Catalog Pricing:

While we have taken every precaution to ensure accurate prices, we cannot guarantee the website or catalog to be free of pricing and description errors. Also, prices may change without notice. The merchandise prices on this website or catalog supersede all prior prices.

***10% discount for Qualified Youth organizations** is for pre-ordered phone sales only. Discount does not apply to in store sales from the brooder or any sales of assortments or specials. This discount is only good at the time of ordering by phone and is void for any added or changed orders or retroactive request for the discounts. The discount also only applies to orders of 30 birds or less per qualified youth participant and used for showing. You will be requested to furnish your group name and/or leaders to us by phone. Generally organized youth poultry clubs, FFA projects and 4-H projects with the above restrictions apply for discount.

Pullet Sexing Guaranteed *90% We guarantee on a 100 paid pullet order that you will receive at least 90 pullets (assuming all the chicks survived to be counted). If we make an error and we did not live up to our stated guarantee, we will refund the pullet purchase price on under 90%. In other words if you have over 10% that are roosters of your pullet order we should be able to refund at pullet price over the 10%. Claims must be sent directly to us when chicks are not more than 12 weeks old. We have one of the best rated and multiple gender selecting methods in the industry, however, still it is only about 90% accurate and it is not a perfect science. It is recommended that you give some thought to the possibility of receiving 10% males and what would you need to do under the circumstance. We do not have any guarantees on percentages on males or females for not sexed/straight run chicks. We do not offer sexing on all of the breeds we sell, for these breeds it is either too hard on them or the professional sexers accuracy is not good enough and could cause customer dissatisfaction.

**Marek's Vaccination Formula Example: 0 – 66 Chicks is a FLAT FEE OF \$10.00.
ANYTHING OVER 66, MULTIPLY CHICK TOTAL X .15¢, DO NOT ADD \$10.00 TO TOTAL!
For Example: 100 chicks x .15¢ = \$15.00**

PRIVACY POLICY

Your confidence in Cackle Hatchery® for your privacy is very important to us. We have physical, electronic and procedural safeguards in place to protect your data. The technology we use to protect your data is reviewed often. Only authorized employees and representatives use your data of which they follow standards, procedures and laws. Your personal information and e-mail address are NOT sold and is only used for Cackle Hatchery® to use to communicate with you. However, your name and postal mailing address may be used for Cackle Hatchery®, its affiliate companies, partners and subsidiaries for the purpose of mailing you a product catalog. Signing up for Cackle Hatchery®'s Newsletter entitles you to exclusive e-mail blast on special deals or sales exclusively for those on this Newsletter list. This Newsletter subscriber list is not sold or shared and used solely for the Cackle Hatchery® Newsletter blast. At the most you would get 6 e-mail newsletters with offers from Cackle Hatchery® during the year.

WHERE DO YOU SHIP POULTRY TO?

We ship to the following states: Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Mexico, New Jersey, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming, Puerto Rico, Virgin Islands.

Hawaii orders have certain requirements. They are as follows: Hawaii orders must be placed at least four weeks in advance and we can only ship chickens. We do not ship turkey, water fowl and other poultry to the state of Hawaii. There is a \$25 processing fee for all Hawaii orders. The order must have at least \$100 dollars worth of birds and/or products to qualify not counting the processing fee or shipping charges.

Stipulation on shipping to Alaska: We are now charging a \$25.00 fee for orders shipped to Alaska. As far as our 100% live arrival guarantee goes any losses called in within the proper time frame will be refunded only. We will not be offering any reships to Alaska. You may start a brand new order if you choose to get any replacement birds, but you will be charged normal ship/handling costs plus the \$25.00 fee.

OUR RESPONSIBILITY to you as a customer is to provide healthy good quality chicks that arrive to you alive and in good condition.

YOUR RESPONSIBILITY As a buyer of live animals, your responsibility is to provide an environment with proper heat, food and water as given in our care sheet. The care sheet instructions are to be read at the time of ordering your birds (preparation information) and read again at time of delivery of birds. A hard copy of the instructions will be sent with your order. Report any unsafe delivery to us as instructed in the above "Live Delivery Guarantee" section. You agree to be free and flexible to pick up your chicks from the post office and have free time to secure the chicks in the brooder and be around to care for them for first 24 hours to make sure everything is doing good and to see that the brooder is regulated properly. We also require you to watch this video "Care of chicks on arrival" located on our care instruction page.

10% CANCELLED ORDER FEE (RESTOCKING FEE) – Any orders placed and then cancelled will have 10% of the total price deducted from the total purchase and shipping price and the difference refunded by check if paid by check and if paid by credit card will have the credit card credited back the difference.

Rationale for the fee: Orders paid for/booked are taken off the market for sale and are marked sold and we potentially could have a lost opportunity for a buyer if cancelled. Cancelled orders create book keeping and labor cost to process the cancelled order, labor to recalculate deletions and adding back on the sell sheets, along with postage or credit card fees to process credits. Our chick pricing is not formulated for cancelled order cost. We do make exceptions for the 10% fee for emergencies and will move a ship date to another date; however, every effort should be made to be prepared to receive your chicks on your given date. Refunds are processed ASAP, but on busy rare occasions can take up to 3 weeks to be completed. It is common practice for customers to order their poultry 2-8 weeks in advance of the time they would like them delivered. Because live new chicks become perishable the day they hatch, it is necessary to have them all sold well before their hatch date. Newly hatched chicks have their 3 day supply of yolk still in their system to sustain them for their trip to your home. We ship every Monday and Wednesday and your birds should arrive at your post office or mailing address within 2 days. Your confirmation notice will give you your hatch/ship date. You should be very flexible around your delivery date so you can take your birds immediately to your brooder to be warmed up so they will start eating and drinking. See our care sheet and preparation.

Marek's Vaccination Formula Example: 0 – 66 Chicks is a FLAT FEE OF \$10.00.

ANYTHING OVER 66, MULTIPLY CHICK TOTAL X .15¢, DO NOT ADD \$10.00 TO TOTAL!

For Example: 100 chicks x .15¢ = \$15.00

**Order by Phone: 417-532-4581****A Straight Run is – Males and females mixed as hatched.**

CAN I MAKE CHANGES TO MY ORDER OR ADD BIRDS TO MY ORDER?

There is an added \$5.00 charge to make a change to an order so please take your time to make sure the order is the way you want it before submitting. After your order is processed we also may not be able to make the change as requested for a number of reasons. Please do not make any changes unless absolutely necessary. It has created too many mistakes to orders, caused our bird counts to not be right on the availability sheets, cost us credit card fee adjustment and caused shorting other customer's orders. **OPTION:** make a new order for the added birds (we can ship as little as 3 birds and 5 on the bantams. The other option is to cancel the order with a 10% cancellation fee and start all over with a new order on a new available shipping date.

Boxing: All poultry will be boxed according to the weather, so the poultry will have the best chance of survival. Because of this, breeds and sexes must be mixed. **Unless indicated by you, breeds and sexes will not be marked.**

At no time will our guarantee exceed the original purchase price. Returned Check Charge – \$25.00

Cackle Hatchery® has been raising quality U.S. Pullorum clean poultry since 1936 and ships throughout the United States, and Puerto Rico.

Safe Handling of Poultry

Live animals and pets can be a source of potentially harmful micro-organisms; therefore, precautions must be taken when handling and caring for them to prevent fecal/oral transmission among people. Children should be supervised as they handle animals and pets to make sure they don't put their hands or fingers in their mouth. Always wash your hands with soap and warm water after handling any animal or pet. For **INFORMATION** and **FREE MATERIALS** contact "United States Department of Agriculture, Animal and Plant Health Inspection Service" at: <http://healthybirds.aphis.usda.gov>
